## EXPERIENCE

### Trader Joe's

*Crew Member*

March 2020 – Present

- Head of Vitamin and Protein bar section.
- Monitoring my sections of the store's inventory to limit excess backstock.
- Organizing displays to maximize sales of new products and communicating with design team for special promotion displays.
- Selected as a trainer for new hires on systems and conduct of the store.
- Educated coworkers how to use the company's ordering system when a new system was introduced.
- Awarded bonuses based on my performance reviews and customer satisfaction.
- Lead team bonding activities after shift to help coworkers decompress.

### BodyStreet USA

*Facility manager*

November 2017- March 2020

- A fitness studio that specialized in Electrical Muscle Stimulation workouts
- Learned studio management and quality standards for 3 weeks in Munich, Germany.
- Hired and managed all new employees.
- Trained new employees on operations and quality standards of the company.
- Oversaw daily functions of the studio and member trainings.
- Signed over 100 new members to the facility after initial trial.
- Educated potential and new members on the benefits of a new type of exercise.
- Communicated statistics and needs for the facility through headquarters in Munich, Germany.
- Coordinated with companies to maintain stock in equipment and tools.
- Operated the studio's social media accounts and promotional marketing.
- Managed clientele and corporate expectations for the studio.

### Foothills Sports Medicine

*Intern/Personal Trainer*

January 2017- May 2017

- Trained professional baseball players in their off season.
- Learned a variety of training techniques and exercise theory.
- Led high school level athletes through hour long workouts.
- Evaluated clients exercise abilities and fitness goals.

## EDUCATION

**Arizona State University**

**College of Health Solutions**

*Bachelor of Science, Exercise and Wellness*

May 2017

## ACTIVITIES

### Web Development

*Self-taught*

June 2020 - Present

- Learning HTML, CSS, & JavaScript.
- Following a self-made routine of coding daily and building projects averaging 30 hours a week of practice.
- Deployed four projects that are live on GitHub.
- Challenging myself to learn new techniques and practices with each project.
- Practicing React to help further my understanding of frontend development.
- Continuing to review my code with developers in the industry for growth and feedback.
